

PREMIUM DDR3 SODIMM MEMORY for MAC Systems

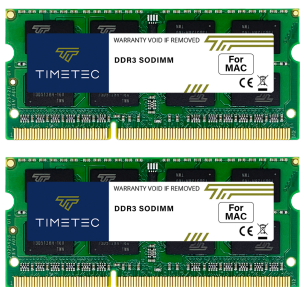

DDR3 MAC SO-DIMM

All Timetec modules are built from strictly selected premium chip ICs for high-performance potential to allow excellent stability and backed by Timetec's advanced replacement program. All memory modules are engineered to perform in even the most extreme environments and rigorously working to ensure that each module meets our stringent performance.

Main Feature

- Speeds start at 1066MHz
- Selected IC

Specifications

Type	iMac, MacBook, MacBook Pro, Mac Mini			
Module Type	204 Pin SO-DIMM Non ECC			
Dram Config	256x8, 512x8			
Frequency	1066MHz	1333MHz	1600MHz	1866MHz
Data Transfer Bandwidth	PC3-8500	PC3-10600	PC3-12800	PC3-14900
Latency	CL7	CL9	CL11	CL13
Voltage	1.35V / 1.5V			
Warranty	Lifetime Warranty			

Order Information

Frequency	CAS Latency	Capacity	TT Part Number
DDR3-1066 (PC3-8500)	CL7	4GB	78AP10NUS2R8-4G
		8GB	78AP10NUS2R8-8G
DDR3-1333 (PC3-10600)	CL9	4GB	78AP13NUS2R8-4G
		8GB	78AP13NUS2R8-8G
DDR4-1600 (PC3-12800)	CL11	4GB	78AP16NUSL2R8-4G
		8GB	78AP16NUSL2R8-8G
DDR4-1866 (PC3-14,900)	CL11	8GB	78AP18NUSL2R8-8G
